2026, Vol. 18, No 3

|                                                                                                                                                                                                                                                                           |          |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Tkachuk I.G., Orletskii I.G., Boledzuk V.B., Ivanov V.I., Tovarnitskii M.V., Makhrova E.G.,</b> CoFe2O4/InSe Heterostructures Based on Layered Crystals: Electrical and Photoelectric Properties.....                                                                  | 03001(4) |
| <b>Shcherban I.M.,</b> Methods for Controlling the Locality of Coaxial Resonator Probes in Microwave Sensorics.....                                                                                                                                                       | 03002(4) |
| <b>Virt I.S., Barchuk N.V., Potera P., Chekailo M.V.,</b> The Effect of the Interaction of Intense UV Radiation with Thin NZO Films.....                                                                                                                                  | 03003(7) |
| <b>Vijayakumar K., Eniya R. Yoga Indra, Vigneashwari B.,</b> Investigation of Cadmium Oxide Nanoparticles Under the Attenuation of Acoustic Shockwaves .....                                                                                                              | 03004(5) |
| <b>Chouarfia S., Sedira L., Meftah K., Kaddouri W., Chitour M., Mansouri K.,</b> A Numerical Study of the Elastic Mechanical Properties of Al/SiC Metal Matrix Composite .....                                                                                            | 03005(5) |
| <b>Kebaili F., Harhouz A., Tayoub H., Hocini A.,</b> Design and Optimization of a Compact 2D Photonic Crystal Filter with a Diamond-Shaped Cavity for Optical Sensing .....                                                                                               | 03006(6) |
| <b>Shchetinin M., Kutsiy S., Hladun M., Yaremchuk I., Stakhira P.,</b> Color-Tunable Quantum Well Based Organic Light-Emitting Device.....                                                                                                                                | 03007(5) |
| <b>Sapronov O.O., Buketov A.V., Dyadyura K.O., Sapronova A.V., Sotsenko V.V., Bishchak R.T., Brailo M.V.,</b> Nanomodified Polymer Composite Bandage Systems for Repair of Oil and Gas Pipeline Systems.....                                                              | 03008(7) |
| <b>Ahmed Ayad Saadi, Ahmed Shaymaa A., Zaker Thoalfiqar A.,</b> Impact of Severe Desert Dust on Multi-Wavelength Free-Space Optical Links: A Comparative Study at 850, 1550, and 3800 nm.....                                                                             | 03009(9) |
| <b>Shulyma S.I., Kurgan N.A., Kasyanenko V.Kh., Karbivskyy V.L., Stonis V.V., Zueva N.O., Puzko O.A., Kliuienko L.P., Sobolev O.I.,</b> Effect of Bi Doping on the Optical and Structural Properties of ZnO Thin Films: Role of Urbach Energy and Mechanical Stress ..... | 03010(7) |
| <b>Minailova I., Ivakhno-Tsehelnyk O., Shamrovska P., Fedorenko A., Kachur N., Matyash I., Maslov V., Zhan D.R.T.,</b> Ellipsometric Characterization of SiO <sub>2</sub> /Au/Cr Nanostructures for Stable SPR Sensors.....                                               | 03011(5) |
| <b>Melnyk O.S., Nahaichenko O.O.,</b> Modern CAD Tools for Single-Electron Nanodevices .....                                                                                                                                                                              | 03012(6) |
| <b>Chykun R.S., Bondarenko I.M., Hlukhov O.V., Chekubasheva V.A.,</b> Development of a Gigahertz-Range Microstrip Sensor for Monitoring the Doping of Semiconductor Structures.....                                                                                       | 03013(5) |
| <b>Swargiary R., Sarma K.C.D., Thakur B.N.,</b> Impact of Body Material on Electrical Characteristics of Raised Source Drain Double Gate JLFET.....                                                                                                                       | 03014(5) |
| <b>Santhanam Suganthi, Thangavel Gunasekaran, Rajangam Balamurugan, Earshia V. Diana, Banu M. Ameena, Alagarsamy Manjunathan,</b> Scoop Shaped Patch and Rectangle Defected Ground Antenna for Sub-6 GHz mid Band 5G Communication .....                                  | 03015(5) |
| <b>Obulesu G., V. Lokesh Raju, Mohan Reddy S.S., Yenna Geetha Reddy, Madhav B.T.P.,</b> Design and Analysis of Poly-Cotton Substrate-based Textile Antenna for mm-Wave 5G, and WBAN Applications.....                                                                     | 03016(5) |
| <b>Lavuri Nageswara Rao, Surendra Loya, Subalatha M., Naveen V. Jagan,</b> A Dual-Band F-Slotted Circular Patch Antenna for S-Band and C-Band Wireless Applications.....                                                                                                  | 03017(5) |

|                                                                                                                                                                                                                                                                                                         |           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Ghosh Anindya, Neogi Rakhi, Tewary Tapas, Bhunia Sunandan</b> , Design of a Unique Band-Pass Frequency Selective Surface for RADAR Application .....                                                                                                                                                 | 03018(5)  |
| <b>Lavuri Nageswara Rao, Navya Ambati, Varalakshmi S., Palla Ravikumar</b> , A Compact T-Shaped Circular Patch Antenna For C-Band Applications .....                                                                                                                                                    | 03019(5)  |
| <b>Bondalapati Anitha, Roy Bappadittya</b> , Frequency-Selective Surface (FSS) Exhibiting High Angular Stability and Polarization-Insensitive Characteristics for Wideband Applications .....                                                                                                           | 03020(5)  |
| <b>Bardhan S., Dey A., Mitra S., Das S., Ghosh P., Mondal Md. A.</b> , Plasmonic Coupling in Silver Nanoparticle Dimers: 3D-FDTD Simulation Study of Distance-Dependent Optical Response .....                                                                                                          | 03021(5)  |
| <b>Maddumala V.R., Surendra L., Navya A., Chapa B.P., Nisha A.S.A.</b> , Analysis of An Elliptical Patch Antenna For C-band Satellite Communication Applications .....                                                                                                                                  | 03022(4)  |
| <b>Kumutha D., Priya C., Geetha P., Gobi P., Hemalatha U.</b> , Design of Analysis of a T-Shaped mmWave Antenna on 47 GHz in 6G Application .....                                                                                                                                                       | 03023(5)  |
| <b>Yaminisasi G., Pardhasaradhi P., Valathuru M., Prasad N., Ganesh G.V., Srinivas G.</b> , Compact Circular Petal Fractal Antenna with Defected Ground Plane Structure for Sub-6 GHz 5G and X-Band Radar Applications .....                                                                            | 03024(4)  |
| <b>Chakraborty Kunal, Narmadha R., Kadirov Islom, Narapareddi Visalakshi, Naidu M. Lakshmu, Rao Karedla Chitambar</b> , Optimization of Various Physical Properties of a CsPbI <sub>3</sub> -xBr <sub>x</sub> (X = 0, 1)-Based Perovskite Solar Cell .....                                              | 03025(4)  |
| <b>Ambika A., Chakraborty Paransree, Kalaivani S.</b> , Compact Flower-Shaped Dual-Band Patch Antenna with Rectangular DGS for WLAN/WiMAX Applications .....                                                                                                                                            | 03026(4)  |
| <b>Mulagani Francis, Babu K. Vasu, Das Sudipta, Mallik Praveen, Medarametla Anusha Rani</b> , Design and Optimization of a Plant-Structured MIMO Antenna for Advanced Wireless Wi-Fi 6E Systems .....                                                                                                   | 03027(5)  |
| <b>Ayasrah Firas Tayseer, William P., Almakki Mohammed, Nirkhi Smita, Rakshe Dhananjay Shripad, Vibhute Pritish, Joshi Kalpana G.</b> , Polymer Nanocomposite Films Doped with Piezoelectric Metal Oxide Nanoparticles .....                                                                            | 03028(6)  |
| <b>Ilchuk H.A., Semkiv I.V., Krukovskiy S.I., Kushnir O.S., Andriyevsky B., Kashuba A.I.</b> , Electronic Energy Structure of Sc-doped GaAs .....                                                                                                                                                       | 03029(7)  |
| <b>Korotun A.V., Kurbatsky V.P., Moroz H.V., Korolkov R.Yu., Nagorna N.M.</b> , Optical Antenna-Resonator Based on a Metallic Prolate Spheroidal Nanoparticle .....                                                                                                                                     | 03030(8)  |
| <b>Storozhenko I., Sirenko P.</b> , Submillimeter-Wave InN Gunn Diodes Featuring a GaInN Graded-Gap Injector .....                                                                                                                                                                                      | 03031(10) |
| <b>Moskalenko O.V., Liapina A.B., Strilchuk O.M., Shcherbyna L.V., Torchynska T.V.</b> , Structural and Optical Study of Er <sub>2</sub> O <sub>3</sub> Thin Films Grown by Spray Pyrolysis from Erbium Nitrate .....                                                                                   | 03032(7)  |
